INTERNSHIP/PROJECT

TECHNOGUIDE INFOSOFT PVT LTD.

- A CRM (Customer Relationship Management) system helps manage customer interactions, track leads, store data, and improving sales and customer service efficiency. Built during a 15-days internship where I learned Laravel this language is especially useful in building web-applications

ULTRON TECHNOLOGIES PVT.LTD

- I assessed a Hospital Management System (HMS) during my project, focusing on its features like patient management, appointment scheduling, billing, and inventory tracking to evaluate its efficiency and impact on streamlining hospital workflows.

RISE TECHNOLOGIES

- Building high-quality applications and websites for live clients, focusing on seamless functionality and exceptional user experiences. Actively learning advanced development techniques, modern frameworks, and industry best practices. Collaborating with teams to deliver innovative and client-focused solutions.
